If the business entity is a nonresident and your state does not report agency licensing to the NAIC's Producer Data Base (PDB), attach a current, no more than 90 days old, certification from the insurance department in the state where the agency is incorporated/domiciled or where the principal office is located.

The business entity must have a Designated Responsible Licensed Producer (DRLP), who is responsible for the business entity's compliance with the insurance laws, rules and regulations of Virginia. The DRLP must be licensed and his/her information must have been reported to the PDB prior to applying for a business entity license. A licensed agency may update its firm associations online at www.scc.virginia.gov/boi/adminlets/allagents.aspx.

A business entity is not required to first obtain a certificate of authority, including a certificate of registration, certificate of organization, certificate of limited partnership, or charter, from the Commission prior to being eligible to obtain a license as an insurance producer, consultant, surplus lines broker, or Viatical settlement broker. **However, the business entity must still obtain the necessary certificate of authority within 90 days of licensure. A failure to obtain that certificate of authority may result in the Bureau of Insurance terminating the producer license.**
